Challenge #261: Car Service Reminders

A solution to last week's challenge can be found [here](#).

With people doing less traveling these days, it's still important to service vehicles regularly. For this week's challenge, create a workflow to identify customers who are likely to need a service soon and email them a reminder. We will also use their prior service history to offer select customers discounts on their next visit.

Output Example:

Hi Patten Hellmer!

Thank you for being a valued customer! Our records indicate that it has been atleast 90 days since your last car service appointment. Call our service number (111) 111-1111 to schedule an appointment and take advantage of the following deals!

Take \$5 off your next appointment.
It appears your car is approaching 60,000 miles. Take advantage of our Comprehensive Car Maintenance Service to extend the life of your vehicle.
Take 10% off your next service appointment up to \$20.
As a thank you for being a loyal customer, get a free oil change with your next appointment.

All offers valid within 30 days of 2021-01-22

My solution! At the rate I've been driving in the past year, I'm not going to need a service until 2023... 😊

Almost thought there wasn't going to be a weekly challenge today! Great challenge to practice some formulas and reporting tools though.
