Challenge #308: Size it up

A solution to last week's challenge can be found [here](#).

This data set provides information related to various clothes-size-prediction. Using this data, find the minimum and maximum weight, age, height per size and the percentage that each size represents rounding the numbers to 2 decimal places. If a line of data is incomplete remove it.

Hint: Nobody is under the age of 10 or over 100 years old.
