Challenge #293: Top 5 Artists

A solution to last week's challenge can be found [here](#).

The Billboard (magazine) is a weekly American music and entertainment magazine that provides music charts. The Hot 100 lists the 100 most popular songs of the week in the US.

This dataset contains information about the Top 100 most popular songs between 2015 and 2021. Find out the top 5 artists and songs who stayed on the chart the longest (weekly) for each in 2017, 2018, 2019, 2020. Then create a table in the format of your choice to display your results.

Hint: The column "Weeks on Chart" shows how many weeks the song was on the charts since its launch.
