Challenge #294: Formula 1 Circuits

A solution to last week's challenge can be found [here](#).

How much do you know about Formula 1 circuits around the world?

In this challenge, we'll go on a trip around the continents.

The dataset "Input_circuits" contains information about the Formula 1 circuits in the world including its location data. The Text Input tool lists countries with their continents.

Using the dataset and the information from the Text Input tool:

- Find the circuit at the highest altitude for each continent.
- Create a map to view the circuits with their names.

Data source: <https://www.kaggle.com/cjgdev/formula-1-race-data-19502017>
