Challenge #115: Let's get crafty!

ChristineB
Alteryx Alumni (Retired)

A solution for last week's challenge has been posted here in both video and workflow forms!

This week's Challenge lets you get crafty! Create an app to allow a user to search a list of craft canned beers by state of origin or beer style. Configure the app's interface to utilize radio buttons to expose the selection elements for each selection option: a Text Box for searching by state, and a Drop-Down for beer styles. Feel free to customize the app as you see fit!
